OUR STORY

It's been said that to make something this good you need some kind of secret recipe.

But there's no magic in this meat. Just hours of hardwood smoke, a craftsman's touch, and over 130 years of practice.

It's the kind of commitment you don't see every day. But that's what it takes to get the thick cut premium flavors people crave.

It's how we make the bacon that bacon lovers dream about. And it's the only way we know how to do it.

BRAND ORIGINS

- Established in 1893 in Missoula, Montana by John R. Daily
- In 1967, the company moved its operations to a new plant on Mullan Road in Missoula
- In the 1980s, Daily's focused on building its expertise in bacon and built the reputation "The Bacon Specialists"
- In 1992, a second plant opens in Salt Lake City, UT
- In 2005, Seaboard Farms purchases Daily's
- In 2014, Triumph purchased 50% of Daily's from Seaboard
- In 2016, third plant opens in St. Joseph, MO

CORE VALUES

- While pursuing our vision, the following core values will serve as the standards for our behavior and day-to-day vision making:
 - Safety
 - Quality
 - Customer
 - Satisfaction

RAW BACON IS SLICED WITH TWO OPTIONS TO
CHOOSE FROM: SLICES/LB. OR SLICE THICKNESS

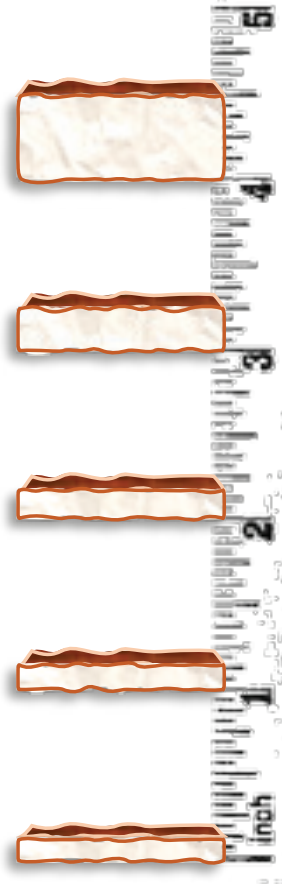

2-SLICE INCREMENTS

4-SLICE INCREMENTS

MEASURED THICKNESS

RAW BACON - SLICE THICKNESS STANDARDS

SLICE COUNT

- Average number of slices
- Slicer continually adjusting for belly size
- 2-slice or 4 slice increments

8/10	8/12
9/11	10/14
10/12	14/18
12/14	18/22
14/16	22/26
16/18	26/30
18/20	
20/22	
22/24	

THE SLICE COUNT IS VERIFIED BY COUNTING THE TOTAL NUMBER OF SLICES IN A CASE AND DIVIDING BY THE CASE NET WEIGHT.

MARKET FACT:

88.7% of Daily's Raw Bacon in the region is sold by slice count.

MEASUREMENT

- Thickness, measured in fractions of an inch
- Daily's estimated ranges are approximately

$$1/2" = 16/32$$

$$1/4" = 8/32$$

$$3/16" = 6/32$$

$$5/32" = 5/32$$

$$1/8" = 4/32$$

FOR SKUs WITH A THICKNESS SPECIFICATION, ONLY THE SLICE THICKNESS IS GUARANTEED.

COOKED BACON – SLICED & DICED

Daily's® Precooked Bacon slices and diced bacon are smoked with real hardwoods for a natural smoke flavor. Old-fashioned sugar cure creates a mildly sweet flavor, with a variety of offerings in Hickory and Applewood smoke profile. Pre-cooked strips are available in single slices on parchment paper (slices on parchment). Diced Bacon is packed in 2- 5 lb. bags.

COOKED SLICE THICKNESS

Daily's® Precooked Bacon slices are available in a variety of thicknesses. We have the perfect product for every foodservice menu application.

- Pre-cooked sliced bacon is sold by the slices per case and net weight.
- To match a competitor's item, you will need both slices per case and case weight.

COOKED SLICE THICKNESS

Knowing the slice count and case weight is the most accurate method to match what a customer is using and what they need. The example below shows that case cost is a direct reflection of the weight of the bacon in the case, not how many slices the case contains.

	Code Number	Avg. Case Weight	Slices per Case	Case Cost	Avg. Cost per Slice
XXX-Thick	41770	5.3	200	\$61.50	\$0.31
XX-Thick	41760	7.5	300	\$82.00	\$0.27
X-Thick	41750	6.8	300	\$71.25	\$0.24
Thick	40600	4.3	300	\$49.75	\$0.17
Regular	40500	3.5	300	\$43.75	\$0.15
Special	40400	3.0	300	\$38.50	\$0.13

PRE-COOKED BACON - STYLES

READY-TO-SERVE (RTS)

Cooked Yield: 30% to 34%

- Can be served without reheating.
- Perfect for cold sandwiches and wraps.

READY-TO-FINISH (RTF)

Cooked Yield: 36% to 40%

- Performs best when briefly heated.
- Can be utilized for breakfast plates and hot sandwiches.

ROASTED (BLANCHED)

Cooked Yield: 47% to 52%

- Gives the best of both raw bacon flavor and taste with pre-cooked bacon yield savings.
- Best for operators who want the convenience of pre-cooked but do not want to sacrifice “raw bacon” performance.

DAILY'S HAM

Made from fresh, never frozen, hand-selected raw ham muscles trimmed to exacting specifications for consistent, high-quality texture, flavor and leanness. A variety of ham styles and sizes from pit hams to flat buffet hams are available.

- Unique food safety processes include infrared pasteurization system.
- Guaranteed world-class food safety.
- Most products are netted instead of using fibrous casings and this eliminates tough rind, the deep delicious hickory smoked flavor penetrates throughout the entire ham and optimizes the color.

GLOSSARY OF KEY TERMS / ABBREVIATIONS

SWJ - SUPER WESTERN JEWEL ★★★★★

Daily's finest quality center cut bacon with the highest standard of grating. Optimal fat to lean ratio for the perfect slice of bacon.

HRI - HOTELS, RESTAURANTS, AND INSTITUTIONS ★★★★★

Daily's most popular center cut bacon. High-quality bacon trimmed and graded to Daily's specifications for leanness, quality, and consistency.

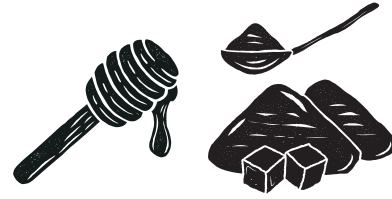

BUFFET - END-TO-END OR TABLE BUFFET ★★★

Daily's most economical option. Same high-quality process with the entire slab slicing for the most competitive pricing.

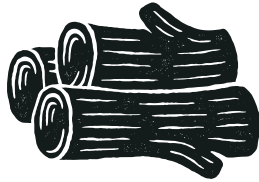

PORK BELLY

A sub-primal cut of pork from the side of the hog. Located below the loin and between the shoulder and ham primal groups, the pork belly is anterior - and attached - to the outside of the pork ribs.

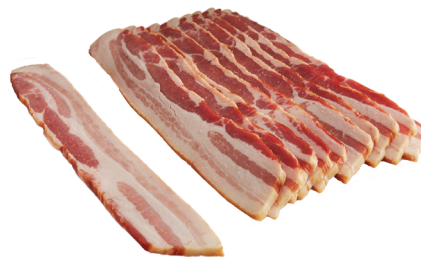

BELLY CURING

A customary method for food preservation, cure recipes use salt to reduce moisture and sweeteners to enhance flavor. In curing pork bellies for bacon, the solution is injected directly into the meat.

BELLY SMOKING

Another traditional way to preserve meats is to draw out moisture slowly, by drying meat in the smoke of a wood fire. Different species of wood produce alternative flavor profiles in smoked meats.

BACON SLICING

Pork belly consists of multiple layers of lean muscle and fat. Slicing bacon makes service preparation easier and portioning more consistent for the consumer.

COOK YIELD

A Measure of finished product weight versus start weight

PRE-COOKED BACON

Defined by the USDA. Bacon must be cooked to 40% yield from start weight (60% shrink)

ROASTED BACON

Product subjected to any cooking process to produce a roasted appearance. No defined % cook yield

PAR-COOKED BACON

Bacon that has not yet met the 60% shrink threshold

READY TO FINISH

Daily's term for pre-cooked bacon that needs a slight warming to deliver 100% satisfaction

READY TO EAT

Daily's term for pre-cooked bacon that delivers a great bite without needing to re-heat

BLANCHED

Another term for roasting or par-cooking

SOURCE MATERIAL

Daily's® dimensionally trimmed bellies deliver better yields.
